

A Best Practice Driven Web Portal and Templates to publish your information with ease.

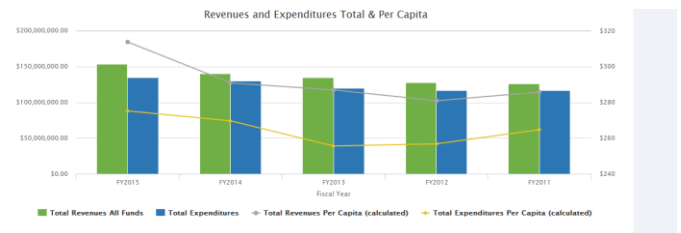

## Improve Public Transparency

In a recent survey of municipal financial managers over 46% indicated the obstacle to become transparent was knowing what and how to publish information about how tax dollars are being spent in a way that a citizen can understand. With MyGovCenter, we provide you best practice templates, dashboards and easy to use tools to easily upload your information and socialize your story.

## Increase Citizen Engagement

Engagement and communication with your citizens is an ongoing need whether it is gaining support for a bond initiative or informing voters of important initiatives. The cost of misinformed voters can be minimized with our easy to configure web pages that help you tell your story through digital engagement.

## Make Progress on Projects and Performance Easily Accessible

Publish and transform complex data into meaningful information that's useful to any audience. Easily link to your existing website.

## Build Trust

65% of us are visual learners. MyGovCenter makes it easy for you to share information through visual storyboards. With feature rich templates and self-service dashboards, you can open your budget, your checkbook, your strategic plan, or any key performance information.
